

Okafor Richard Tochukwu

Frontend Engineer | Full-Stack Perspective

+234 905 940 5621 okaforrichard76@gmail.com linkedin.com/in/rekahdo/

SHORT BIO

I am a frontend-focused engineer with a full-stack background, building fast, scalable, and modular web applications using Next.js, React, TypeScript, Tailwind CSS, and Shadcn UI. I look beyond pixel-perfect designs to understand end-to-end data flow from backend APIs to client interactions. By encapsulating logic and state into clean, reusable components, I craft resilient architectures that scale efficiently and deliver smooth user experiences.

EXPERTISE

Software Development

Product Development

Frontend Architecture

Computer Operations & Technical Support

Logistics & Operational Efficiency

Solar Systems Engineering

Geographical Expertise: Nigeria

JOB EXPERIENCES

Peer Mentor & Front-End Developer

Feb 2026 - Jun 2026

TS Academy | Nigeria

- Participated in an intensive front-end engineering cohort while serving as a peer mentor for fellow developers.
- Assisted classmates with complex JavaScript, React, and responsive UI assignments, helping debug client-side code and resolve build issues.
- Conducted peer reviews and explained core development concepts to accelerate team learning and project delivery.

Front-End Development Instructor

May 2024 - Apr 2025

NIIT Ikeja | Nigeria

- Technical Instruction:** Taught foundational web technologies—including semantic HTML5, modern CSS3 layout techniques (Flexbox, CSS Grid), and core JavaScript—to entry-level software development students.
- Curriculum Execution:** Guided students through hands-on coding exercises, DOM manipulation techniques, and practical project builds to solidify core programming concepts.
- Code Reviews & Mentorship:** Conducted one-on-one debugging sessions, reviewed student code submissions for best practices, and provided constructive feedback to accelerate learning.

JOB EXPERIENCES (CONTINUED)

Logistics Owner & Operator (Side Hustle)

Jan 2024 - Sep 2025

CityHouse Logistics | Nigeria

- **Skilled Mindset:** Applied a disciplined, results-oriented approach to navigate complex routing and time-sensitive delivery schedules.
- Founded and managed a personal delivery side business operating after school hours while studying at NIIT.
- Handled schedule dispatch, package routing, customer communications, vehicle maintenance, and daily delivery operations across local routes.

Solar Engineer

Jan 2021 - Dec 2023

First City Solar Inverter | Nigeria

- Designed, installed, and maintained solar power inverter systems and battery storage units.
- Performed system diagnostics, electrical circuit troubleshooting, and routine hardware maintenance.
- Developed strong analytical and problem-solving skills that transitioned effectively into software engineering.

Computer Operator

May 2019 - Nov 2020

Cyber Cafe | Nigeria

- Managed daily computer operations including document typesetting, printing, scanning, and online registrations.
- Provided front-line technical support to customers, troubleshooting hardware and software issues to ensure minimal downtime.
- Assisted users with internet navigation, email setup, and basic system maintenance, fostering a reliable and efficient working environment.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Next.js, HTML5, CSS3, Java, Spring Boot

Styling & UI: Tailwind CSS, Shadcn UI, CSS Modules, Responsive Web Design

Tools & Databases: Git, GitHub, MySQL, VS Code, WebStorm, IntelliJ IDEA, RESTful APIs

EDUCATION & CERTIFICATION

Software Engineering

NIIT

Spring Boot Certification

Udemy
