PROFESSIONAL SUMMARY

Frontend Engineer with over 1 year and 3 months of professional full-time industry experience at Pettify Global Technologies building responsive web applications using React, Next.js, TypeScript, Tailwind CSS, Base UI, and Shadcn UI. Demonstrates strong capabilities in client-side state management, responsive component design, UI component architecture, and unit testing using Vitest and React Testing Library. Complemented by a solid background in web technologies from NIIT, founding independent ventures, technical instruction, and solar electrical systems.

TECHNICAL SKILLS & COMPETENCIES

- **Frontend Engineering:** React, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Base UI, Shadcn UI, CSS Modules, Responsive Design
- **Testing & Build Tools:** Vitest, React Testing Library, Vite, Git, GitHub, Postman, VS Code, WebStorm, IntelliJ IDEA
- **Backend & Databases:** Convex, Better Auth, Mongo DB, Java, Spring Boot, RESTful APIs, MySQL, JDBC
- **Professional Competencies:** Collaborative Teamwork, Clear Communication, Technical Instruction, Problem Solving

---

PROFESSIONAL EXPERIENCE

Frontend Engineer

Pettify Global Technologies Ltd | Lagos, Nigeria (Remote)
July 2025 – Present (Full-time)

- Engineer responsive, performant user interfaces and modular web components using React, Next.js, TypeScript, Tailwind CSS, Base UI, and Shadcn UI.

- Translate visual design wireframes into clean, accessible, functional web pages and interactive UI features.

Front-End Developer Trainee

TS Academy | Nigeria
Feb 2026 – July 2026

- Completed an intensive front-end engineering program focusing on modern client-side web development and UI component architecture.
- Analyzed curriculum design, online instructional delivery, and student engagement workflows to gain operational insights for future tech education initiatives.
- Collaborated on capstone team projects, including SolStat, a planetary data visualization web application built with React and CSS.

Founder & Logistics Operations Manager

CityHouse Logistics | Lagos, Nigeria
Jan 2024 – March 2025

- Founded and operated an independent local delivery service, handling direct door-to-door parcel pickups and drop-offs across the Lagos axis.
- Built practical logistics experience from prior work with dispatch and ride-hailing networks (such as InDrive and Uber), managing route planning, scheduling, and direct customer interactions.

Solar Systems Engineer

First City Solar Inverter | Lagos, Nigeria
Jan 2021 – Dec 2023

- Consulted directly with clients to assess power requirements, performing load calculations to size inverters, solar panels, battery banks, and electrical accessories.
- Executed full on-site installations of solar PV systems, inverters, and battery storage units, performing circuit isolation to integrate the inverter with the building's existing electrical setup.
- Managed routine system maintenance, troubleshooting, and equipment transport for repairs and re-installations.

Computer Operator

Cyber Cafe | Lagos, Nigeria
2018 – 2020

- Managed daily cyber café operations, including document typesetting, high-volume printing, scanning, and digital duplication.
- Assisted walk-in clients with online portal registrations, document formatting, and electronic application submissions.

- Handled basic computer system administration, file organization, and customer service tasks to ensure a smooth operating environment.

EDUCATION & QUALIFICATIONS

Qualification / Credential	Institution / Provider	Completion Date
Certificate of Completion (Frontend Development)	TS Academy, Nigeria	July 2026
Master Spring Boot 3 & Spring Framework 6 with Java	Udemy (in28Minutes)	Sept 2025
Professional Diploma in Information Technology (Software Engineering)	NIIT Ikeja Centre, Nigeria	Dec 2023
West African Senior School Certificate (WASSCE)	Starlight Comprehensive Secondary School, Ogidi, Nigeria	2017
